AHSN Polypharmacy Action Learning Set (ALS)

9.30am – 12 noon on 10 May, 24 May and 7 June 2023

The AHSN polypharmacy ALS is for GPs and other primary care prescribers, from the Wessex, Oxford and West of England Academic Health Science Network regions.

Join our Polypharmacy Action Learning Sets (ALS) to help build your confidence in, and understanding of, the complex issues surrounding stopping inappropriate medicines safely. Delegates need to attend all three sessions.

The Polypharmacy ALS will also help Primary Care Networks to deliver the medicines optimisation elements of the Directed Enhanced Services contract and contributes to QoF.
