

PRIMARY CARE REBATE SCHEMES IN NHS DORSET

Primary care rebate schemes are contractual arrangements offered by pharmaceutical companies, sometimes via third party companies, which offer retrospective financial rebates to Dorset Integrated Care Board (ICB) based on primary care prescribing expenditure for particular branded medicine(s). The availability of a scheme does not influence the inclusion of specific medicines in care pathways or the Dorset formulary.

All rebate applications are assessed against the NHS Dorset corporate policy for primary care rebate schemes, which can be found under corporate policies at:

<https://nhsdorset.nhs.uk/about/policies/>.

Please direct any enquiries regarding primary care rebate schemes to:

commissioning.medicines@nhsdorset.nhs.uk.

The primary care rebate schemes to which Dorset ICB has signed up are as follows:
